of spoken language corpora wowa word order in western asia and hambam hamedan bamberg corpus of contemporary spoken persian the majority of the languages are historically ov yet exhibit high rates of post verbal elements and these constitute the primary focus of the volume one of the major findings is the importance of semantic role in determining pre versus post verbal placement of clausal constituents we identify a consistent bias towards post verbal placement of spatial goals which is amplified by increasing areal proximity to the vo languages of the southwestern periphery of the region semitic in the languages in and adjacent to the caucasus on the other hand we find stronger effects of information structure in triggering post verbal position along with contributions on individual languages and varieties the volume includes an overview chapter outlining the theoretical background and the data sources summary chapters on sub regions as well as contributions from an experimental and psycholinguistic perspective

balochistan is pakistan s largest province rich with natural gas gold and copper located on the borders of iran and afghanistan land of the balochs where the first baloch confederacy was founded in 1666 has had a bitter history of exploitation and suppression by a strictly centralized federal government heavily influenced by the country s military while the central government and the province confronted each other four times since the forceful annexation of the baloch land into pakistan in 1948 the ongoing movement entails more systematic and radical dimensions malik siraj akbar editor of the the baloch hal the first online english newspaper of balochistan takes a look at the last one decade how the dimensions of the baloch movement changed a hubert humphrey fellow at arizona state university s walter cronkite school of journalism malik reveals the enforced disappearance of hundreds of baloch political workers and their brutal murder by the pakistani security services under a kill and dump policy during detention in a phenomenon similar to argentina s dirty war the book analyzes growing state sponsored radicalization in secular balochistan malik is the most widely quoted journalist on balochistan he insists that the killing of former governor nawab akbar bugti 79 by pervez musharraf s regime proved as the 9 11 of pakistan s relations with the resourceful province the balochistan question merits attention of the international community not only for a stable pakistan but also to provide the world alternative options for a secular buffer state between iran and afghanistan if pakistan falls in the hands of islamists

english description the present volume contains the contributions of an international symposium on linguistic contact in balochistan the issues treated range from linguistic contact of balochi and its neighbour languages in historical and modern times to sociolinguistic questions of multilingualism and to the role of balochi as minority language in present day iran pakistan afghanistan turkmenistan and the gulf states

the volume presents a comprehensive and multifaceted overview of current research on balochi german description der vorliegende band enthalt die beitrage eines internationalen symposiums uber sprachkontakt in balochistan das themenspektrum reicht vom sprachkontakt zwischen balochi und seinen nachbarsprachen in historischen und rezenten zeiten uber soziolinguistische fragen der mehrsprachigkeit bis zur rolle des balochi ans minderheitensprache im heutigen iran pakistan afghanistan turkmenistan und den golfstaaten der band bietet eine umfangreiche und vielfaltige zusammenschau der aktuellen forschung zum balochi

with a background survey of theories of language standardization and orthography of the development of other iranian standard languages and of balochi dialects and phonology this work provides a description and assessment of the development of balochi as a written literary language from the 1950s up to the present apart from a thorough investigation of existing publications and publishers the study consists of two main parts both of which are based on interviews with and articles written by leading literary baloch as well as on quantitative investigations balochi language is dealt with and investigations as to what dialects predominate in written balochi are presented the second part of the study deals with the orthography of balochi to each of these two parts of the study there belongs a text appendix the purpose of these appendices is to provide practical illustrations of the questions dealt with in the theoretical investigations balochi language which is less than 40 years old as a written literary medium is at present still in a formative stage thus even if there are certain tendencies towards linguistic and orthographic standardization there is as yet no single accepted standardized norm for written balochi

balochistan has been an important contact zone between the indian subcontinent and the iranian plateau it is a region where a variety of languages intermingle different religions jostle for attention and traditional ways of living are challenged by modernity the papers in this volume explore balochistan s linguistic socio political and cultural diversity balochistan is in many ways a marginalised region in pakistan iran and afghanistan traditional economies persist but modernity is rapidly gaining ground tensions between traditionalism and modernity are explored in several articles other articles examine the impact of economic development in balochistan political borders are always problematic and this is particularly so in southwest asia only in the late 19th century were the present borders between iran afghanistan and pakistan drawn as modern nation states were consolidated in the 20th century the baloch found themselves under the dominion of islamabad and tehran the baloch nationalist movement which is treated in a number of articles has been much stronger in former british india pakistan than in iran a powerful element of self definition in the middle east and south asia is religious belief in balochistan this may take the form of

balochi sunni assertions contra persian shia ones or attempts by the minority zikri baloch to resist mainstream sunnism another source of social demarcation is tribal affiliation thus difference between self and other is not always baloch versus non baloch both religious and social demarcations are discussed in various articles in this volume the balochi language is the subject of several articles in the volume this language is a conglomerate of dialects with diverging grammatical systems and it is therefore by no means possible to speak of a standard balochi language throughout history the baloch have been in contact with other groups and this has influenced their language in the eastern parts of the balochi speaking region contact with indo aryan languages is particularly intense as it is in the western parts with persian but other languages are also spoken in balochistan this has created widespread multilingualism where one language the national language or an international language may be used for reading and writing and balochi as well as other local languages are used in various oral domains
