kings and usurpers in the seleukid empire the men who would be king focuses on ideas of kingship and power in the seleukid empire the largest of the successor states of alexander the great exploring the question of how a man becomes a king it specifically examines the role of usurpers in this particular kingdom those who attempted to become king and who were labelled as rebels by ancient authors after their demise by placing these individuals in their appropriate historical contexts through careful analysis of the literary numismatic and epigraphic material by writing about kings and rebels literary accounts make a clear statement about who had the right to rule and who did not and the seleukid kings actively fostered their own images of this right throughout the third and second centuries bce however what emerges from the documentary evidence is a revelatory picture of a political landscape in which kings and those who would be kings were in constant competition to persuade whole cities and armies that they were the only plausible monarch and of a right to rule that advanced and refuted on so many sides simply did not exist through careful analysis this volume advances a new political history of the seleukid

empire that is predicated on social power redefining the role of the king as only one of several players within the social world and offering new approaches to the interpretation of the relationship between these individuals themselves and with the empire they sought to rule in doing so it both questions the current consensus on the seleukid state arguing instead that despite its many strong rulers the empire was structurally weak and offers a new approach to writing political history of the ancient world

could the revelation of st john inspire us even today in our own spiritual quest yes answers dr korte an author of several books and articles interpreting myths and the bible as she reads man s spiritual transformation in st john s visions irma korte questions the common view of revelation as a prophesy of horrors and god s revenge and instead invites the reader into man s inner world here st john contemplates in pictorial mythical language the most essential problems in religion such as the nature of man reality and evil as the visions proceed st john himself experiences a profound inner change he gives up alienating religious beliefs and moves toward ever deeper spirituality culminating in the final illumination interpreting the visions much like myths are analyzed in jungian thought dr

korte compares the images in st john s visions to those from other religious texts psychological and philosophical theories mythology and yoga literature as well as from dreams and experiences of present day men and women the many quotations from the works of occidental and oriental mystics testify that they have used images similar to those of st john in recounting their own experiences these mystics include among others st teresa of avila st john of the cross and paramahansa yogananda
